The policies and procedures for the Dietetic Internship (DI) Program have been developed in congruence with the Meredith College Institutional Policies and Practices.

A. MISSION STATEMENT FOR THE DIETETIC INTERNSHIP PROGRAM:

In accordance with the Standards of Practice of the Academy of Nutrition & Dietetics, as well as the mission and purpose of Meredith College and the John E. Weems Graduate School, the philosophy of the internship program at Meredith is to build on the academic preparation of Didactic Programs in Dietetics (DPD). It provides the education in clinical nutrition, public health, and food service management for entry-level dietitians as stated in the Standards of Education published by the Academy of Nutrition & Dietetics (AND). Interns will gain solid understanding and experience in normal and clinical nutrition, public health nutrition, and food service management. They will apply nutritional principles to all stages of the life cycle, disease prevention, control of disease process, and restoration of health through effective communication and in the context of human relationships. The program, which admits qualified men and women, strives to create a supportive, diverse, and intellectually rigorous environment for dietetic education. Analytical and conceptual skills will be further developed through graduate coursework. Interns will develop the knowledge, skills and values that will prepare them to assume leadership roles and strive for professional competence, productivity, and service to society.

B. GOALS AND OUTCOME MEASURES:

Program Goal #1: The program will produce competent graduates that are ready for entry-level positions in the field of nutrition/dietetcs and/or advanced degree programs in nutrition, dietetics, or allied health fields.

Outcome Statements:
1. Graduates will successfully pass the RD Exam on their first attempt.
2. Graduates who seek employment will obtain positions in nutrition/dietetcs.
3. Graduates who seek an advanced degree program in nutrition, dietetics, or allied health fields, will be accepted.
4. Employers will find graduates to be competent dietetic practitioners in the workplace.
5. Interns will successfully complete the DI program.
6. Graduates will assess themselves as meeting knowledge requirements for entry-level dietitians.
7. Graduates will assess themselves as meeting performance requirements for entry-level dietitians.

Target Measures:
1. Ninety percent of graduates will pass the registration exam for dietitians on the first attempt.
2. Ninety percent of graduates who seek employment will obtain positions in nutrition/dietetcs within three months of completing the program.
3. Ninety percent of graduates who seek graduate school in nutrition, dietetics or allied health field will be accepted.
4. Eighty-five percent of employers will rate graduates as average, above average or excellent dietetic practitioners.
5. Ninety-five percent of Traditional and Site Preceptor Pathway interns will complete the DI program within 16.5 months of the start of the program. Ninety-five percent of ISPP Interns will complete the DI program within 24 months of the start of the program.
6. Ninety percent of graduates will assess themselves as having at least satisfactory, more than satisfactory or outstanding knowledge required for entry-level dietitians.
7. Ninety percent of graduates will assess themselves as having at least satisfactory, more than satisfactory or outstanding performance required for entry-level dietitians.

**Program Goal #2:** The program will produce graduates that provide leadership and/or service professionally and to the community.

**Outcome Statements:**
1. Graduates will demonstrate leadership in the workplace.
2. Graduates will provide leadership and service professionally and to the community

**Target Measures:**
1. Ninety percent of graduates will rate themselves as having at least satisfactory, more than satisfactory or outstanding leadership skills in the workplace.
2. Seventy-five percent of graduates will provide leadership or service professionally and to the community at 3-5 years post-graduation.

C. **PROGRAM OVERVIEW:**
Meredith College's ACEND-accredited dietetic internship program provides college graduates with the knowledge and supervised practice needed to enter this fast-growing field of nutrition. The dietetic internship prepares men and women for the R.D. exam and, ultimately, a career in nutrition.

Meredith's location is ideal for internship participants who have the opportunity to work at some of the world's top corporations and medical centers, as well as in local human services agencies and school systems.

The Site Preceptor Pathway (SPP) and the Individualized Supervised Practice Pathway (ISPP) program allows interns to do some or all of their DIP conveniently in their home state.

Meredith College DIP provides a concentration in leadership in the field of nutrition and the community.

D. **PROGRAM COSTS for 2015-2016:**

E. FINANCIAL AID:
Graduate Interns may be eligible to borrow money from the Federal Stafford loan program to assist with their educational expenses. All interns will want to explore their options thoroughly. Your deferment ends just prior to your Enrichment rotation.

Interns must complete a Free Application for Federal Intern Aid (FAFSA). Applications for financial assistance and for the loan programs are available at the Office of Financial Assistance in Johnson Hall. You may also apply online at www.fafsa.ed.gov.

To contact the Meredith Office of Financial Assistance, please call (919) 760-8565 or email: Finaid@meredith.edu. For more information about financial assistance, please visit www.meredith.edu/finaid.

F. ACCREDITATION STATUS:
The program is accredited by the Accreditation Council for Education in Nutrition & Dietetics (ACEND) of the Academy of Nutrition & Dietetics, 120 South Riverside Plaza, Suite 2000, Chicago, IL 60606, 312/899-0040, ext. 5400.

G. ADMISSION REQUIREMENTS:
The following information is required when applying to the Meredith College DIP:
1. DICAS Application Form
2. Personal Statement
3. Official transcript(s), overall GPA of 3.0 is required
4. Declaration of Intent to Complete Degree or Verification Statement
5. Recommendations
6. Application fee
7. TOEFL scores, for international Interns only
9. Participation in DICAS (Dietetic Internship Centralized Application System)

H. PROGRAM CALENDAR AND SCHEDULING
The traditional internship program through Meredith is approximately eleven months in duration starting in August & ending in June, with breaks in November & December.

The Site Preceptor Pathway is 11-16.5 months long. The program Starts in August and ends June-October of the following year. Intern is provided with Food Service Management and Clinical Site. Intern is responsible for identifying their other rotations, with approval of the DI Director/Coordinator and the sites they are contracting with.

The ISPP is 11-24 months long. The ISPP Intern must complete the program within 2 years of their starting date, which is the first date of orientation. The ISPP Intern sets their own schedule, with approval of the DI Director/Coordinator and the sites they are contracting with.

The supervised practice component of the program provides 33 weeks of field experience divided into four general rotations: 12 weeks of clinical, 8 weeks of Food Service Management, 9 weeks of Community, & 4 weeks on Enrichment (the number of weeks per rotation may vary slightly). Interns will work at their sites 40+ hours per week.

Daily work schedules will vary & are set by the site supervisor/preceptor. Interns will meet on campus or via an internet-based technology program one day per month for a one-hour Refresh and Reflection (R&R) DI meeting.
I. SUPERVISED PRACTICE POLICIES

1. Professional Liability Insurance: every intern is required to have professional liability insurance. The DIP purchases group professional liability insurance for the intern through Marsh, Liberty Mutual, Seabury & Smith.

2. Liability for Travel: The intern is responsible for their own liability and safety during travel to and from assigned supervised practice sites, field trips, and to and from Meredith College for classes and meetings. In the event that the intern’s car becomes disabled or involved in an accident during supervised practice or necessary internship, they should look to their personal safety first. The intern should make arrangements for their car and/or transportation as needed. As soon as practical, contact the site supervisor and either the program director or clinical supervisor.

3. Injury: In the event of injury or illness while at an assigned supervised practice site, the intern should contact their site supervisor immediately and the program director or clinical supervisor as soon as practical. If an illness or injury requires the intern to leave or miss hours at a facility, it is the intern’s responsibility to contact the site supervisor as soon as possible and arrange a schedule to make up the missed hours. For an injury while at a supervised practice site, the intern should contact the site supervisor immediately and seek appropriate medical treatment. The intern should follow the policies and procedures of the facility for on-the-job injuries.

4. Statement of Equal Opportunity: As stated in the Graduate Catalog of the John E. Weems Graduate School, the college does not discriminate in the administration of its educational and admissions policies, scholarship and loan programs, athletic and other school-administered programs, or in access to its programs and activities on the basis of race, creed, national or ethnic origin, gender, age or disability.

5. Protection of Privacy Information: According to the Meredith College Faculty Handbook (Section 3.5.20; pg. 92), “the privacy rights of every Meredith intern are protected as specified under the Family Educations Rights and Privacy Act of 1974.” For a copy of this document see the Registrar.

6. Access to Personal Files: The intern is allowed to review their records by making an appointment with the DI director. Interns have access to all of their records including performance appraisals by site directors with the exception of confidential recommendations letters or forms. None of the records may be removed from the DI director’s office. The DI director will be available to answer any questions regarding evaluations and appraisals. A written request to the program director is required in order for intern records or personnel files to be released to the intern directly or to a third party.

A transcript can be acquired in person or by making an on-line request to the registrar’s office at Meredith College. The form to request a transcript may be obtained online on the Registrar’s website. Official transcripts can be mailed to prospective employers, graduate schools, or picked up by the intern in a sealed envelope.

7. Site Assignments: Interns are placed at sites using the following criteria:
   • Interns are asked to complete a questionnaire regarding their career goals. This information, in addition to site interviews, is used to place interns at their sites.
   • Every effort is made to place interns in sites that are of interest to them.

8. Orientation: Interns are required to attend the entire 3-4-week orientation program, including all field trips, classes, lectures, assignments, and projects. The orientation schedule will be distributed in August. You will receive a copy of the schedule on your first day of orientation. Plan to be available every day during the orientation. Prior to orientation, interns are expected to submit:
9. **A valid drivers license:** If the driver’s license expires prior to the completion of the DIP, the intern is expected to provide an updated driver’s license.

10. **Valid Car Insurance:** If the car insurance expires prior to the completion of the DIP, the intern is expected to provide an updated copy of their car insurance.

11. **Personal Health Insurance:** Insurance that will cover you during the program. Any documentation (photocopy) of this type of coverage for the next year will be fine. You cannot be in the program without this coverage. Meredith College does classify Dietetic Interns as full-time Graduate Interns. Please contact me if you need a letter stating your Intern status. Insurance coverage can be purchased through Meredith College Health Center. If you are interested in this insurance, call Carroll Health Center at 919-760-8139 for details.

12. **Vaccination Records:**
   - **Screening for exposure to tuberculosis** is accomplished by the administration of the two-step TB skin test. We will need records documenting at least two annual skin tests within 12 months. Those with a history of a positive reaction to the skin test will be required to: a) provide a record documenting the measured result of the skin test in millimeters, b) provide a copy of the chest x-ray report following the skin test, & c) complete a medical screening questionnaire to be reviewed by the Medical Director of Employee Health Services.

   **Note:** A history of vaccination with BCG is not a contraindication to TB screening, nor is pregnancy.

   - **Assessment for immunity** will require provision of any of the following as proof:
     - Physician diagnosed and documented measles, mumps, and rubella, or documented lab results demonstrating past exposure to measles, mumps, and rubella, or documentation of 2 MMRs or a combination of (2)measles, (2)mumps, and (2)rubella vaccines. Note: PPD testing cannot be done within 30 days after receiving an MMR.
     - Varicella documented lab results demonstrating past exposure to chickenpox, or documentation of 2 varicella vaccines. Note: PPD testing cannot be done within 30 days after receiving a varicella vaccine.
     - Hepatitis B vaccination series (documentation), or documented lab results demonstrating positive immunity, or signed declination form.
     - Adult booster tetanus, diphtheria and pertussis vaccine (Tdap) – applies to all interns. Note: The vaccine should not be administered any sooner than 2 years following the last dose of tetanus toxoid, diphtheria toxoid and/or pertussis containing vaccine.
     - As of January 2013, a documented flu shot is required as well.

13. **Verification Statement:** Verification Statement: An original, completed verification form obtained from your undergraduate or DPD director, which states that you have completed all ACEND-required coursework. This is different from the form you sent in with your DI application packet. Please bring an original copy. Your original verification statement must be on file the first day of orientation.

14. **Transcript:** ACEND states that we must have an official transcript from the institution where you received your bachelor’s degree indicating the date and the name of your earned that degree.

15. **Clinical Modules:** DI Director will email your clinical module assignments for your clinical rotations. Our sites request that these be completed before the start of the clinical rotation. Since you will not know when you
are starting your clinical rotation until after interviews are completed, you will need to complete them prior to Orientation. Please be aware that modules do change over time, so complete them as required, but also realize that changes may occur.

16. Annual Physical (optional, but highly recommended): Some sites require proof of annual physical from your physician’s office prior to starting your rotations.

Other Orientation Information:

16. Interviewing for (Traditional Interns Only): Interviewing: Some interns will be invited to interview at selected sites. Interviews are usually conducted in July/August, 2015. Right now the sites that interview are WakeMed Raleigh Hospital, Duke Regional Hospital, Duke Diet and Fitness Center, NC State University, Central Carolina Hospital. If you are interested in any of these sites, please send a one-page resume by June 15th, listing all appropriate work experience and why you are interested in these sites. Please note that clinical sites usually prefer you to have some level of clinical experience prior to interviewing.

Once all the resumes are received, I will contact you if you are selected to be interviewed. Remember, you may request an interview at these sites . . . you don’t automatically get an interview if you submit a resume. Interview dates are set by the site. Please be aware that occasionally, some sites ask interns to interview in mid-July.

17. Medical Terminology & Abbreviation Test: A medical terminology & abbreviation test will be administered during orientation. A score of 80% or higher is considered passing. You must pass this test to continue in the DIP. The list of terms/abbreviations you are expected to know is emailed to you over the summer. Any standard medical terminology text will suffice to prepare for this exam. The text used at Meredith if you don’t already have one is:

Medical Terminology: a Programmed Systems Approach

18. Required Texts: The following texts are required for the internship:

Any high-level diet therapy/clinical/medical nutrition therapy text(s) (e.g., Krause’s Diet Therapy). Your undergraduate clinical text should do fine.

Nutrition and Diagnosis Related Care by Sylvia Escott-Stump (latest edition) YOU ARE EXPECTED TO HAVE AND READ THIS BOOK PRIOR TO STARTING THE DIETETIC INTERNSHIP

International Dietetics and Nutrition Terminology (IDNT) Reference Manual: Standardized Language for the Nutrition Care Process. You are expected to be familiar with this book prior to starting the Dietetic Internship

The 7 Habits of Highly Effective People -- by Stephen R. Covey. You are required to read this book before beginning the internship. At orientation, you will get into groups and present each chapter of the book, so read the book thoroughly.

19. Criminal Background Checks: Sites are requesting background checks be completed on interns prior to starting at the site. The DI Director will do the background check, but you are expected to cover the cost of the background check. Right now, the cost is ~$50.00. There may be times when you may need to purchase more than one background check. Your admission into the DIP is contingent upon your passing the background check.
20. **Drug Testing:** Interns are required to have a negative drug screen test at orientation. Interns will go to Accent Urgent Care in Raleigh and submit to a 7-panel drug screen test. Interns are expected to pay for the cost of the test. Currently, the fee is $30.00. Results will be faxed to the DI Director, and any positive drug screens will result in the Intern being excused from the DIP. Occasionally, sites may require a 10-panel or a 12 panel drug screen. If this occurs, the intern will need to submit to another drug screening as required by the site.

21. **Statement of Honor:** In keeping with the traditions of honor at Meredith College and the John E. Weems Graduate School, all graduate Interns are expected to demonstrate personal integrity in their work and actions. By accepting admission to the Graduate School, Interns acknowledge and agree to adhere to the Honor Code. We, the Meredith community, are committed to developing and affirming in each Intern a sense of personal honor and responsibility. Uncompromising honesty and forthrightness are essential elements of this commitment.

22. **Code of Ethics for the Profession of Dietetics:** Interns are expected to adhere to the Code of Ethics for the Profession of Dietetics:

   Fundamental Principles
   The dietetics practitioner:
   1. Conducts himself/herself with honesty, integrity and fairness.
   2. Supports and promotes high standards of professional practice and accepts the obligation to protect clients, the public and the profession by upholding the Code of Ethics and reporting perceived violations of the Code.

   Responsibilities to the public
   3. Consider the health, safety and welfare of the public at all times.
   4. Complies with all laws and regulations applicable or related to the profession or to the practitioner’s ethical obligations as described in the Code.
   5. Provides professional services with objectivity and with respect for the unique needs and values of individuals.
   6. Does not engage in false or misleading practices or communications.
   7. Withdraws from professional practice when unable to fulfill his/her professional duties and responsibilities to clients and others.

   Responsibilities to clients
   8. Recognizes and exercises professional judgment within the limits of his/her qualifications and collaborates with others, seeks counsel, or makes referrals as appropriate.
   9. Treats clients and patients with respect and consideration.
   10. Protects confidential information and make full disclosure about any limitations on his/her ability to guarantee full confidentiality.
   11. In dealing with and providing services to clients and others, complies with the same principles set forth above in principles 3-7.

   Responsibilities to the profession
   13. Presents reliable and substantiated information and interprets controversial information without personal bias, recognizing that legitimate differences of opinion exist.
   14. Assumes a life-long responsibility and accountability for personal competence in practice, consistent with accepted professional standards, continually striving to increase professional knowledge and skills and to apply them in practice.
   15. Is alert to the occurrence of a real or potential conflict of interest and takes appropriate action whenever a conflict arises.
   16. Permits the use of his/her name for the purpose of certifying the dietetics services have been rendered only
if he/she has provided or supervised the provision of those services.
17. Accurately presents professional qualifications and credentials.
18. Does not invite, accept or offer gifts, monetary incentives or other considerations that affect or reasonably give an appearance of affecting his/her professional judgment.
Responsibilities to colleagues and other professionals
19. Demonstrates respect for the values, rights, knowledge and skills of colleagues and other professionals.

23. **Personal Car:** Interns are expected to have their own personal car as a mode of transportation. Public transit is not feasible.

24. **Graduate Courses:** Interns must pass the two graduate courses with a 3.0 (out of 4.0) or “B” average.

25. **Supervised Practice Rotation Evaluations:** Interns must pass all rotations with an 80% passing rate or grade. Rotations are defined as an assigned period of time interns spend at a particular site or facility in which their performance is formally evaluated (examples would be a 4-week food service rotation, a 4-week wellness rotation, or a 12-week clinical rotation). If an intern receives a grade lower than 80% for any rotation, they must repeat and pass part or all of the rotations with a grade of 80% or greater. The make-up rotation will be completed during the intern’s scheduled vacation time and/or after the conclusion of the regular program year. There is no guarantee that the same site or rotation will be available.

Intern performance is evaluated at their supervised practice site using a series of evaluation forms completed by site supervisor(s), program director, and/or clinical supervisor. Specific competencies are scored on a scale from 0 to 3, corresponding with the following levels of proficiency:

- **0 =** does not demonstrate entry level competence for dietitians, requires routine assistance & needs to improve knowledge base
- **1 =** working toward entry level competence for dietitians, requires regular assistance
- **2 =** demonstrates entry level competence for dietitians, requires occasional assistance
- **3 =** demonstrates entry level competence for dietitians, works independently

Passing rate is determined by the total number of “2” or “3” scores an intern receives on evaluations for a given rotation. To pass a rotation, 80% of final scores reported on all evaluations completed for a given rotation must be a “2” or “3”.

The following is a list of evaluations that are required at each site, and should be included in the Intern’s End of Rotation E-Portfolio:

**Clinical Rotation:** **Required modules:** General, Renal, DM, Cardiology, Oncology, GI & pick 1 or your choice

During the Rotation:
- a. Every 2 weeks, the preceptor will complete the Clinical Evaluation Form
- b. After an in-service, the attendees will complete the In-service Evaluation Form
- c. After a case study presentation, the attendees will complete the Case Study Evaluation Form

At the End of the Rotation:
- a. The Preceptor will complete the End of Rotation Evaluation
- b. The Intern will complete the Self Evaluation
- c. The Intern will complete the Site/Supervisor Evaluation

**Community/WIC Rotation:**

During the Rotation:
a. Every 2 weeks, the preceptor will complete the Nutrition Screening & Assessment Evaluation Form and the Nutrition Counseling & Education Evaluation Form and the Communication with the Healthcare Team Evaluation Form
b. After an in-service, the attendees will complete the In-service Evaluation Form
c. After a case study presentation, the attendees will complete the Case Study Evaluation Form

At the End of the Rotation:

a. The Preceptor will complete the End of Rotation Evaluation
b. The Intern will complete the Self Evaluation
c. The Intern will complete the Site/Supervisor Evaluation

Community/Wellness Rotation:

During the Rotation:

a. Every 2 weeks, the preceptor will complete the Nutrition Screening & Assessment Evaluation Form and the Nutrition Counseling & Education Evaluation Form and the Communication with the Healthcare Team Evaluation Form
b. After an in-service or presentation, the attendees will complete the In-service/Presentation Evaluation Form

At the End of the Rotation:

a. The Preceptor will complete the End of Rotation Evaluation
b. The Intern will complete the Self Evaluation
c. The Intern will complete the Site/Supervisor Evaluation

Community/LTC Rotation:

At the End of the Rotation:

a. The Preceptor will complete the End of Rotation Evaluation
b. The Intern will complete the Self Evaluation
c. The Intern will complete the Site/Supervisor Evaluation

Community/School Rotation:

During the Rotation:

a. The interns will evaluate the program and offer suggestions

Food Service Management Rotation:

During the Rotation:

a. Every 2 weeks, the preceptor will complete the Food Service Management Evaluation Form
b. After an in-service, the attendees will complete the In-service Evaluation Form

At the End of the Rotation:

a. The Preceptor will complete the End of Rotation Evaluation
b. The Intern will complete the Self Evaluation
c. The Intern will complete the Site/Supervisor Evaluation

Enrichment Rotation:

At the End of the Rotation:

a. The Preceptor will complete the End of Rotation Evaluation
b. The Intern will complete the Self Evaluation
c. The Intern will complete the Site/Supervisor Evaluation

26. Evaluation of Sites: As indicated above, at the end of each rotation, the intern is asked to complete an evaluation of the supervised practice site/preceptor, including strengths of the site, weaknesses of the site and overall evaluation of the site. This will be included in the each of the intern’s End of Rotation E-Portfolio.
27. **End of Rotation E-Portfolio:** As indicated above, interns will complete an End of Rotation E-Portfolio. This portfolio is due to the DI Coordinator **one week after each rotation.** Included in the E-Portfolio should be:
- Interns name
- Name of rotation
- Intern’s Hours
- Preceptor and Intern Evaluation Forms
- Summary information and materials that indicate or support the completion of the site modules
- Any projects the intern completed
- Intern pictures from each site (optional)

28. **Program Completion Requirements:** To successfully complete the Meredith College Dietetic Internship Program and receive a signed program completion Verification Statement, interns must meet all of the following criteria:
Interns must
- a. Pass all rotations and complete all competencies/Learning Outcomes for DIPs
- b. Complete all assignments
- c. Work all assigned hours
- d. Turn in all evaluation forms
- e. Turn in all End of Rotation E-Portfolio
- f. Attend all field trips
- g. Complete a 4-week enrichment rotation
- h. Have an average of a “B” in the Graduate Classes

**J. GENERAL POLICIES AND PROCEDURES**

1. **Academic Probation:** As stated earlier, interns must achieve an average grade of 3.0 or “B” for the two graduate courses to successfully complete the internship program. If an intern receives a 2.0 or “C” in the first graduate course (fall semester) they will be placed on academic probation and must raise their average GPA for both courses the following grading period (spring) to a 3.0. Failure to do so will result in dismissal from the program. The period of academic probation will end when the intern’s GPA is raised above 3.0.

2. **Disciplinary Procedures and Dismissal from the Program:** Interns are required to follow all policies and procedures in place at each facility to which they are assigned. Some of these include, but are not limited to
- Keeping client information confidential
- Showing respect to clients and their families
- Addressing instructors, DI Director, co-workers by their appropriate, professional titles
- Maintaining open communication with site preceptors
- Wearing appropriate attire
- Acting professionally with all employees and clients
- Being prepared for rotations (including calling site supervisors at least 1 week prior to a rotation)
- Working assigned hours
- Demonstrating a positive and friendly attitude
  - Smoking, chewing gum, personal phone calls, and personal internet use are considered inappropriate during working hours.
Interns are also expected to:
- Demonstrate initiative at the sites
• Be prepared for assignments and rotations
• Follow instructions
• Take on all responsibilities/work-related requests as appropriate
• Work all assigned hours (Interns may discuss the assigned hours with the site supervisor, but interns may not set or dictate their own hours. Interns may not change their hours without site supervisor’s approval).
• Inform DI Program Director of scheduled presentations/case studies/in-services, etc. The DI Director will make every effort to attend events in person (or for Site Preceptor Pathway and ISPP interns, using a form of technology)
• Plan their enrichment rotations, submit objectives & contract on a timely basis
• Arrive at rotation sites promptly, and avoid unexcused absences
  o Absences should be limited to illness, injuries and extreme circumstances. Absences without notice are considered inappropriate conduct and are subject to disciplinary action (see Absence Policy, section J-5).

If in the view of the site preceptor and/or DI program director, the intern is not complying with the stated responsibilities and/or policies and procedures for a facility or the DI program, the college reserves the right to suspend or to exclude at any time without prior warning a intern whose academic standing or conduct is regarded by Meredith as undesirable or unacceptable. In most cases, a warning notice (see Appendix) will be issued. In such instances, the DI program director will meet with the intern to discuss the specific concern(s) and develop a plan or provide suggestions for rectifying the problem. If the intern still fails to comply with the policies and procedures, and/or receives a second warning notice, he/she may be dismissed from the program.

Interns are expected to maintain a high standard of professionalism at all times.

As stated in section J-1, an intern may be dismissed from the program for failure to maintain an overall 3.0 or “B” average for a second consecutive semester. Interns are subject to dismissal for not complying with the policies and procedures for each site/facility or not complying with policies stipulated in legal agreements between the supervised practice site and Meredith College. Interns may also be dismissed from the program for academic dishonesty (see Graduate School catalogue for Honor Code violations and procedures).

Dismissal from the program will be decided upon by a review panel composed of the DI program director, the instructor of the graduate course (if applicable and different from the DI director), site preceptor from sites the intern has attended (if applicable), and the Head of the Department of Nutrition, Exercise and Human Performance.

3. Appeal Procedures and Due Process: If an intern is dissatisfied with an evaluation or grade earned for any of their rotations, they may appeal the decision by taking the following steps:
   a. The intern should discuss the evaluation with his/her supervisor. If this does not satisfy the intern, they should proceed to step b.
   b. The intern should discuss the evaluation with the DI director.
   c. The DI program director will arrange for a meeting with the intern and the supervisor who provided the appealed evaluation.
   d. The final decision regarding scores/grades on supervised practice evaluations rests with the DI program director.
   e. Due process for interns experiencing problems with a grade in the graduate course is outlined in the graduate school catalog.
   f. See sections K5 and K6 for details regarding handling complaints from interns and complaints from preceptors.
Interns wanting to appeal a decision of dismissal from the DI program should submit a written appeal to the director of the graduate school within 1 month of the date of dismissal.

4. **Vacation and holidays:** Traditional Dietetic Interns will have at least two open (floating) weeks, plus two weeks of vacation in December. There is also a short break in November for Thanksgiving. ISPP Interns will set their own schedules, keeping in mind the 2 year requirement. Site Preceptor Interns will have the same breaks as the Traditional Interns in November and December. They may set their schedules for rotations outside their provided rotations (FS and Clinical)

If an intern needs to make up any hours missed during the year due to illness or DI director-approved absence, the missed time will be made up during the intern’s time off. It is recommended that interns schedule routine medical or dental appointments during vacation time or open weeks.

5. **Absence Policy:** Interns are expected to be present at their site every day of each supervised practice rotation assigned. If an intern is dismissed from a site for a day because of weather, legal holiday, holiday, etc., they must contact the DI program director as soon as practical. An intern may have up to 2 personal/sick days to use at their discretion throughout the internship. Whenever possible, schedule these ahead of time and in writing with the DI Director and Site Supervisor.

If the intern is absent from a site without prior notification and permission, the site director and/or site supervisor will fill out a Warning notice (see appendix). A copy of the notice(s) will be sent to the DI program director and the intern. The DI program director will meet with the intern within one week to discuss the reason for the absenteeism. If an intern is absent for >3 days throughout the year, the DI program director will determine whether the intern will be dismissed from the program or whether other consequences will apply.

6. **Weekly Hours:** As stated previously, interns are required to work a minimum of 40 hours per week during supervised field experience. The site preceptor determines the intern’s working schedule. Interns are required to document their total number of hours for the week using the time sheets provided. The log of hours worked weekly must be signed or initialed by a supervisor at the end of each week and turned into the DI program director every 4-weeks. Lunch is NOT included in the working hours. Working on Modules at home or other locations such as coffee shop or library is NOT included in the working hours. Working on general internship projects such as NCDA posters, the school project or organizing E-Portfolios may not be included in supervised practice time. Driving to/from sites is NOT included in working hours. The only exception to this rule is when you are leaving a site early to attend a Meredith College required class/meeting with DI Director.

7. **Lateness Policy:** Interns are expected to be at each rotation and in class at the required time. Upon arrival at the site, the intern is to report to the site director or assigned personnel. At the discretion of the site supervisor, any degree of lateness will result with the site supervisor submitting an Intern Warning Notice form to the DI director (see appendix). After five incidents of tardiness the intern will be required to work a free weekend at a site assigned by the program director. Regular tardiness is unacceptable behavior. Depending on the number and severity of cases, tardiness will result in the intern receiving a Warning notice and possibly being dismissed from the program.

8. **Funeral and Family Emergency Leave:** If a death or severe illness occurs in the immediate family of an intern, they should arrange for appropriate time off with the DI program director prior to leaving. The intern will then be responsible for making up the missed work during their vacation time, an open week, or other available time during or at the end of the program.

9. **Leave Due to Illness or Maternity/Paternity Leave:** Interns that miss supervised practice time due to illness, pregnancy, or other circumstances, must make up any time missed during vacations, an open week, or
other available time during or at the end of the program. Arrangements must be made with the DI program director as to how the intern will finish the program. The program must be completed within two years.

10. **Weekends:** The intern may be expected to work some weekends. These are scheduled by the site supervisors(s). Therefore, the intern should not make any arrangements for weekends without assuring that they will be free. Interns should not request permission from their supervisors to leave early on Friday or to arrive late on Monday the following week for personal travel plans.

11. **Field Trips:** The entire DI class travels to the FNCE on an annual basis. The FNCE is in Nashville, TN this year. The intern is financially responsible for the conference, airfare and any expenses related to the conference. The intern is responsible for booking his/her own airfare and reserving his/her FNCE registration.

The traditional DI class will go to the NC Dietetics Association’s Annual Meeting. The Site Preceptor Pathway or ISPP Intern will go to their respective state’s Annual Meeting. The intern is financially responsible for any expenses related to the Annual Meeting including registration fees.

12. **Withdrawal and Refund:**
An intern who wishes to withdraw permanently from a program must submit an official withdrawal form signed by the program director to the graduate school office. If the graduate intern withdraws from the program before the end of the semester, he/she is financially responsible for the following percentage of the full semester:

- **During the first week (40 hours) of supervised practice:** 0%
- **After the first week of supervised practice and up to the end of the second week (80 hours):** 50%
- **After the second week of supervised practice and up to the end of the third week (120 hours):** 80%
- **After the third week of supervised practice:** 100%

13. **Academic Policies:** Interns enrolled in the DI program, the Site Preceptor pathway or the ISPP Program are considered graduate interns at Meredith College, for this program only, and are subject to the academic policies for the Graduate School at Meredith College. Academic policies are printed in the Graduate Catalog.

14a. **Role of DI Director:** The interns enrolled in the DI Program will interact frequently with the DI program director. The DI program director will visit the traditional DIs periodically. The DI Director will use a form of technology to meet with the Site Preceptor Pathway and the ISPP interns. Through contact with site preceptors and the intern, the DI program director will be continually updated on the interns’ progress and will communicate their performance to the intern throughout the program. The DI program director is available to the intern for individual counseling and advising throughout the program. This is congruent with the philosophy of Meredith College, to provide individualized attention to interns and to assist them in reaching their potential.

Somewhere near the end of the first semester, the DI director may have a meeting with the intern to discuss his/her performance in comparison to the required competencies. Additionally, site preceptors will provide written performance evaluations to the DI program director to attest to the acquisition of competencies as each segment of a rotation is completed. If the intern does not meet the competencies/objectives with an 80% passing rate, he/she will be required to repeat the rotation or section of a rotation at the end of the program or during vacations.
At the end of each rotation, the intern will perform a critical self-evaluation of his/her performance. The DI program director will use the rotation performance evaluations, written assignments, and projects to grade the performance of the interns in each of the three major rotations. (Pass/Fail)

Intern’s performance in graduate courses will be evaluated as stated in the syllabi for each course. The instructor of the course will notify interns if their performance is not satisfactory. Progress in an intern’s overall performance will be reviewed continually, and recommendations for improvement will be provided orally. The DI program director will be notified of an intern’s continued performance concerns. If the intern is not performing to a standard that is congruent with the site, the DI Director will meet with the site and the Intern and an action plan will be documented.

14b. The Role of the Dietetic Internship Coordinator: The Dietetic Internship Coordinator assists the DI Director in a variety of capacities. The Coordinator may handle communication from interns, verify site placements, contract negotiation, make site visits, find new DI sites, teach during orientation, help interns with research paper development, case study development, setting up calendars, or other activities.

15. The Enrichment Program: The enrichment rotation is an additional 160-hour supervised practice experience. Interns are encouraged to do their enrichment program in a location other than those used in the DI program and to use this opportunity to experience a new dietetic setting and/or locale. The enrichment site and experience must be identified, goals and objectives, and plans completed by the February 28, 2015. A site agreement/contract between the rotation site and Meredith College must be completed and signed by both parties before the intern may start their enrichment rotation.

Interns are required to develop a set of objectives to be accomplished during their enrichment experience. A summary report or daily journal of the intern’s enrichment experience must be submitted to the DI program director upon completion of the experience.

16. Professional Dress Code: The dress code has been established so that interns will conform to the sanitary requirements of foodservice and health care and will always present a positive image to those in affiliated institutions. A “dress code” always includes unwritten rules of cleanliness:

- Good grooming and hygiene, including frequent bathing and use of antiperspirants/deodorant if necessary
- Good taste and appropriateness in clothing selections is expected
- No bare shoulders/tank tops, sandals, flip-flops, short-shorts
- Naval area must be covered
- Skirt and shorts are to be no higher than 2 inches above the knee.

Interns should adhere to the dress code of the facility to which they are assigned. Some general guidelines include:

- Smoking is not allowed on Meredith Campus or on the campus of most major medical centers. Smoking is not allowed during Supervised Practice Hours.
- Jewelry: rings limited to wedding rings/bands—-one ring per hand
- Watch: are permitted, should be professional in appearance
- Earrings: one, plain, post-type earring per ear (no dangling or gauged ears)
- Hair: combed daily and arranged neatly; hair must be completely covered by a hair net, hair bonnet, or surgical cap when in food production areas; non-porous plastic or metal hair ornaments are permissible
- Hair color: hair must be a normal color throughout the entire internship (no un-natural colors)
- Tattoos: All visible tattoos must be covered throughout the entire internship
- Laboratory Coats: when deemed necessary by your site
- Body Piercings: are not allowed unless deemed an appropriate expression of religion (must be discussed and approved by DJ Director)
Pants should be at the waist or hips, no undergarments should show.

Women:
- Clean and pressed, white lab coat over a professional dress, blouse, skirt or slacks.
- Blouse/dress must have sleeves. Dress and skirt length should be no shorter than 2 inches above the knee.
- No bobby-socks or bare legs.

Men:
- Clean and pressed, white lab coat over collared shirt, conservative tie optional, plain dark dress slacks, dark shoes.
- Jeans (denim or corduroy), shorts, and t-shirts are not acceptable.

Shoes:
- Comfortable shoes in good condition that afford support and protection
- Shoes are to be low heeled and closed toes, clean and polished
- Tennis or sport shoes are not acceptable

Miscellaneous:
- Gum chewing is not allowed
- Excessive make up and perfume should not be used
- Nail polish is not allowed; no fake nails.
- Name tag must be worn at all times
- If privacy is required for restroom use, please take an extra few minutes, and seek out a restroom that will afford you the privacy.

K. OTHER INFORMATION

1. Support Services: Dietetic intern have access to all intern support services on campus which includes, but not limited to, library and media services, computer labs, photocopy machines, counseling center, and exercise facilities.

2. Observation Opportunities: It is the intern’s responsibility to inform the DI program director of scheduled in-services, presentations and case studies as soon as they are scheduled. The DI program director will make every effort to attend these, evaluate the intern, and offer constructive criticism.

3. Prior Learning: If an intern has at least 6 months of full-time WIC experience AND they can pass the WIC Competency Exams, they may replace their WIC rotation with another community rotation such as Health Department, DHHS, Fruit and Vegetable Coalition, Cooperative Extension, EFNEP. Goals and objectives that match established DI Competencies must be established and approved prior to beginning this community rotation. Intern must inform DI Director by September 1, 2015 if they feel they meet this criteria.

4. Refresh and Reflection Meetings (R&R): At least once a month, interns meet virtually or on campus to reflect on their DIP, share experiences with other interns, complete competencies, take field trips, and ask questions. Attendance at these meetings is required.

5. Handling complaints from interns: The filing and handling of formal complaints from interns will include a recourse to an administrator or other program director and prevents retaliation. When a complaint is received by an intern, the complaint will be discussed in detail with the intern. The next step will include the Dietetic Internship Director discussing the complaint with the Head of the Nutrition, Health and Human Performance (NHHP). When necessary, the situation will be discussed with the Dean of the School of Education, Health and Human Sciences. If necessary, a meeting may be held between the DI Director, the intern and the Head of NHHP. Each step in the complaint process will be documented, and will culminate in a written summary and action plan.
6. **Handling complaints from preceptors:** The filing and handling of formal complaints from preceptors will include a recourse to an administrator or other program director and prevents retaliation. When a complaint is received by a preceptor, the complaint will be discussed in detail with the preceptor and the intern. The next step will include the Dietetic Internship Director discussing the complaint with the Head of the Nutrition, Health and Human Performance (NHHP). When necessary, the situation will be discussed with the Dean of the School of Education, Health and Human Sciences. If necessary, a meeting may be held between the DI Director, the intern, the Preceptor, and the Head of NHHP. Each step in the complaint process will be documented, and will culminate in a written summary and action plan.

7. **Sexual Misconduct and Title IX:** Meredith College is committed to providing a safe and positive living, learning and working environment. Members of the campus community are expected to treat others with integrity and respect and to take responsibility for their actions. Meredith College will not tolerate sexual misconduct that includes but is not limited to non-consensual sexual intercourse, non-consensual sexual contact, sexual exploitation, sexual harassment, sexual coercion, relationship violence, and stalking. Sexual misconduct can be committed by men or women, and it can occur between persons of the same or different gender. Acts of sexual misconduct are forms of sex discrimination prohibited by College policy and Title IX.

As a recipient of federal funds, Meredith College complies with Title IX of the Education Amendments of 1972. Title IX provides: “No person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subject to discrimination under any educational program or activity receiving Federal financial assistance.”

If you believe you or someone you know has been the victim of sexual misconduct, you should promptly report incidents to the Meredith Title IX Coordinator, Pam Davis, Director of Human Resources, at davispam@meredith.edu or at 919-760-8760. For incidents involving students, you may also contact Ann Gleason, Dean of Students, at gleasona@meredith.edu or at 919-760-8521. As soon as Meredith College employees (including faculty, staff and residence life staff members) become aware of possible sexual misconduct, they must report to Pam Davis, Title IX Coordinator, or to Ann Gleason, Dean of Students. No employee is authorized to investigate or resolve complaints of sexual misconduct without the involvement of the Title IX Coordinator or the Dean of Students. If you are unsure about what constitutes sexual misconduct at Meredith College, please contact the Title IX Coordinator or the Dean of Students.

Instances of sexual misconduct may violate both the College’s sexual misconduct policy and the law. Meredith College strongly encourages victims to pursue their complaints through both the Meredith College reporting process for sexual misconduct and through the criminal justice system. Campus Police at Meredith College may be reached at 919-760-8888 to provide information for pursuing a criminal investigation of sexual misconduct. The off-campus criminal investigation is independent from any investigation that is reported to Meredith College officials under this policy. Regardless of whether a victim decides to pursue a criminal investigation, Meredith College will take immediate steps to investigate the complaint, protect the victim, and to ensure safety of the campus community. If a criminal complaint is filed in addition to a complaint reported to Meredith College, the College will continue implementing its procedures and protections regardless of the timeline or outcome of the criminal procedures.

While all persons receiving a report of sexual misconduct understand the desire to keep information confidential, maintaining confidentiality is not always possible. The only individuals at Meredith College permitted to guarantee confidentiality are licensed counselors in the Counseling Center (919-760-8427), the campus Chaplain (919-760-8346), and the medical and nursing staff in Meredith College Health Services (919-760-8535). These resources may be consulted at any time, including prior to making an official report.
to the College. To the extent possible, the College will respect a student’s request for confidentiality; however, the request for confidentiality will be weighed against the College’s obligation to act on information it has received in order to provide a safe campus environment.

Meredith College recognizes the importance of assisting a member of the Meredith College community who is a victim of sexual violence in regaining a sense of personal control. In this respect, several College departments coordinate efforts to offer services to a victim and others upon whom the sexual misconduct might have an impact. Meredith College strongly urges anyone who is the victim of sexual violence/misconduct to:

- **Seek immediate medical assistance:** If you are in Wake County, contact the Solace Center to receive a forensic evidence exam by a trained Sexual Assault Nurse Examiner (within 120 hours or five days of the assault). This exam is free, and a Raleigh Police officer will respond to begin an investigation. If the victim is unsure about pressing charges, she/he can receive an anonymous exam, giving the victim up to one year to decide about next steps in the criminal justice process. If outside of Wake County, victims are encouraged to go to the nearest emergency room.

  Immediate resources for support and response: Meredith College Campus Police, 919-760-8888; Solace Center, 919-828-3067; Interact’s 24-hour Rape Crisis Line (919-828-3005); Meredith College Health Services, 919-760-8535.

- **Seek on-campus crisis support:** Call the Meredith College counselor on call through Campus Police at 919-760-8888. For confidential on-campus counseling, resources and information, contact the Counseling Center, Chaplain, or Health Services. These offices guarantee confidentiality.

- **Gather information** about campus policies, rights, reporting and resources: Contact the Title IX Coordinator, Pam Davis, or Dean of Students Ann Gleason.

If the person reporting sexual misconduct does not wish to pursue a hearing or requests that his/her complaint remain confidential, the College must investigate and take reasonable action in response to the complaint/report to prevent any recurrence of an incident or to remedy a hostile environment. Even if a person does not pursue submitting a report or complaint to the College, he/she may seek or request the following short-term, interim options. These interim options or actions ensure the safety of all individuals involved and the fairness of the investigation process; they are not decisions about responsibility. The Title IX Coordinator and/or the Dean of Students will consider ways to permit both persons to continue participation in campus classes and activities as appropriate while the complaint is being investigated and addressed through grievance procedures.

**Non-retaliation:** All members of the College community, including students, faculty and staff, who have a good faith concern regarding possible sexual misconduct are expected to report these concerns to the Title IX Coordinator or Dean of Students. The College prohibits retaliation, in any form, against any individual who reports, in good faith, an actual, potential, or suspected violation of the sexual misconduct policy. Anyone who engages in retaliation will be subject to discipline in accordance with the College’s Harassment and Non-Discrimination Policy and Procedures.

**Wrongful allegation:** It is a violation of this policy to bring a knowingly false complaint under this policy. However, failure to prove a claim of sexual misconduct does not alone constitute proof of a false and/or malicious accusation. Individuals who make frivolous or false reports shall not be deemed to be acting in good faith.
Complaints regarding sexual misconduct will be adjudicated through grievance procedures outlined in the full Sexual Misconduct Policy found on the College’s Title IX web site at www.meredith.edu/title-ix. These procedures promptly and fairly address sexual misconduct complaints and allow rights for both the complainant the accused.

The full Sexual Misconduct Policy, found on the Title IX web site, includes definitions of consent and acts of sexual misconduct, the role of the Title IX Coordinator and Dean of Students in investigating complaints of sexual misconduct, grievance procedures and appeal processes. Additional information about resources for victims of sexual violence and bystander intervention strategies is available on the Dean of Students web page. Questions about sexual misconduct, reporting, support, and grievance procedures may be directed to the Title IX Coordinator or Dean of Students.

L. DI VERIFICATION FORM
Verificaiton of completion of the DIP at Meredith College will be given to all interns who successfully complete the coursework and the supervised practice components of the program. Verification statements and other required materials will be submitted to the Commission on Dietetic Registration (CDR) for eligibility for the RD Exam.

M. EXIT INTERVIEW
Interns are requested to evaluate the overall program upon completion of the requirements. The Program Director holds an exit interview with each interns upon completion of the program and records that information in the intern's file. Compiled data are shared with faculty as part of the program evaluation.

N. INTERNS WITH DISABILITIES
Interns with documented disabilities or special needs should visit the Disability Services Department’s website or office for assistance and guidance. Interns with documented disabilities or special needs should also contact the DI Director within the first four weeks of first day of the orientation. Refer to the Graduate Handbook for more details.

Revised Summer 2015
Intern Warning Notice

Date: ________________________

End of Rotation/Exit Evaluation Form  
(Completed by preceptor at the end of each rotation)

Intern Name: ______________________ Facility: ______________________

Please rate the Intern’s performance based on the scale below:
S---Satisfactory   NI---Needs Improvement   NA---Not applicable or could not be assessed adequately at this time

___ Intern was adequately prepared for rotation site
___ Intern had knowledge of the subject matter required for tasks
___ Intern treated others with dignity and respect
___ Intern demonstrated adequate level of enthusiasm
___ Intern demonstrated good interpersonal relationship with patients and employees
___ Intern complied w/the Code of Ethics/Standards of Care for dietetic professionals
___ Intern was resourceful
___ Intern demonstrated initiative
___ Intern responded adequately to feedback and followed through on suggestions
___ Intern had the ability to adapt to change
___ Intern projected confidence
___ Intern demonstrated good oral communication skills
___ Intern demonstrated good written communication skills
___ Intern planned, organized, and made efficient use of time
___ Intern was adequately productive
___ Intern had the ability to follow through
___ Intern was detail oriented when necessary
___ Intern demonstrated leadership skills
___ Intern had good judgment and decision making
___ Intern established, communicated and executed goals
___ Intern had good supervisory and/or management skills
___ Intern trained and instructed others well
___ Intern has the ability to evaluate others

(Completed by intern at the end of each rotation)

Intern: ________________________  Facility/Rotation: _________________________

Please evaluate the performance of the site/supervisor in this rotation. Use of this form is to help the site supervisor to identify areas of strengths and weaknesses. The sites/supervisors will not receive this form, but a summary of all the comments gathered.

**Strengths of Site/Supervisor:**

**Weakness of Site/Supervisor:**

**Overall Evaluation:**

**What suggestions do you feel would be beneficial in preparing you for this site:**
INTERN SELF EVALUATION FORM
(Interns complete at the end of each rotation)

Intern Name:_________________ Facility/Rotation:______________________________

Please rate your performance in this rotation using the scale below. Use this personal reflection of your performance to identify areas for improvement in your next rotation in the program. Your scores on this form will not be used to assess your successful completion of this rotation.

S = Satisfactory
D = Needs development
NA = Not applicable or can not be accurately assessed at this time

___ I prepared adequately (pre-rotation assignments, reading) for this rotation/site
___ I had a sufficient knowledge base to perform required tasks
___ I demonstrated adequate oral communication and listening skills
___ I developed positive and professional relationships with others
___ I discerned where skills needed further development & took steps to develop these skills
___ I followed stated guidelines for attire at this site
___ I demonstrated initiative
___ I demonstrated assertiveness when appropriate
___ I projected confidence
___ I was flexible and able to adapt to changing work conditions
___ I showed interest in the learning experience provided
___ I responded appropriately to feedback from supervisors and followed through on suggestions
___ I demonstrated leadership skills
___ I demonstrated independence in judgment

**Total Points:_____________________/100**
Community (Wellness & WIC) Evaluation Form
Counseling & Education
(Preceptors to complete at the end of the 2\textsuperscript{nd} week and the end of the 3\textsuperscript{rd} week during rotation)

Intern: ___________________________     Site/Faculty: __________________________

Please rate Intern performance on the following competencies using the rating system below:
- 3 = demonstrates entry level competence for dietitians, works independently
- 2 = demonstrates entry level competence for dietitians, requires occasionally assistant
- 1 = working toward entry level competence for dietitians, requires regular assistance
- 0 = does not demonstrate entry level competence for dietitians, requires routine
  assistance and needs to improve knowledge base.
NO = Not Observed, NA = Not Applicable

Counseling & Education

<table>
<thead>
<tr>
<th>Time Period</th>
<th>date</th>
<th>date</th>
</tr>
</thead>
</table>

Intern develops educational materials for individual/target group

Intern prepares for counseling/educational session (diet plans, visuals, pt information is gathered from health care team)

Intern uses appropriate verbal and nonverbal communication skills (Intern introduces self, shows good listening skills, uses open and close–ended questions to explore patient responses)

Intern knows and applies fundamentals of counseling for dietary change (correctly explains therapeutic diet, meal plans, appropriate serving sizes, and demonstrate knowledge of nutritional supplements and food constituents)

Intern concludes counseling/educational session (summary of information discussed, planned behavior changes reviewed, follow-up and referrals discussed if applicable)

**Nutrition Screening & Assessment**

<table>
<thead>
<tr>
<th>Time Period</th>
<th>date</th>
<th>date</th>
</tr>
</thead>
</table>

Intern performs screening of clients for nutrition and health status and documents results

Intern efficiently locates pertinent information from client’s records

Intern includes all nutritionally relevant information in the nutritional assessment.

Intern interviews client for nutrition related data on activity level, and for cultural, economic, and demographic factors using appropriate interviewing techniques.

Intern understands and evaluates anthropometric data relevant to clients needs.
