Meredith College is pleased to report graduation statistics for the students who entered as full-time, first-time freshmen in Fall 2004. In compliance with the Student Right-to-Know (SRTK) Act of 1990, the report reflects the percentage of students who complete within six years (150% of the normal time to completion). However, it is significant to note that most Meredith graduates do not take six years to earn their baccalaureate degrees.

Meredith has also chosen to report its four-year and five-year average graduation rates for full-time, first-time students.

| Number of Entering Students | 399 | 376 |
| Graduating in 4 or fewer years | 43.4% | 49.1% |
| Graduating in 5 or fewer years | 57.9% | 59.8% |
| Graduating in 6 or fewer years | 60.4% | 61.7% |

The more selective an institution is, the higher the graduation rate tends to be on average. In 2010, the six-year graduation rate for institutions offering Bachelor’s and Master’s degrees averaged from 37.7% for private institutions having liberal admission to 83.6% for private institutions with highly selective admission.

Meredith College admits qualified women students without regard to race, creed, national or ethnic origin, age, sexual orientation or disability.
