

As announced in the July 27 Fall 2020 update email, Meredith College will be using the [Campus Clear app](#) to facilitate daily self-monitoring for Covid-19 symptoms. This free app, which provides a short, intuitive survey that takes less than 10 seconds to complete on a daily basis, will be an important part of Meredith's efforts to prevent the spread of COVID-19.

Next week, employees are asked to participate in a phased roll-out of the Campus Clear app. **Starting on Wednesday, Aug. 5, any employee who plans to come to campus should log into Campus Clear daily to answer a question about their symptoms.**

Employees will need to show their Campus Clear "Good to Go" screen to Campus Police at the Hillsborough Street gatehouse. Please practice patience and allow some additional time to enter campus as Campus Police transitions to this new system.

Employees are asked to download the Campus Clear app, which is available for free in the [Apple store](#) and on [Google Play](#), and to use their Meredith email address to create an account. (Contact Technology Services at techsupport@meredith.edu with questions.)

Please note that the privacy of each Campus Clear user is protected and their information is only accessible to key health officials of the College who are leading contact tracing efforts.
