

This series of messages about Meredith's Vaccine Clinic were shared with the campus community. The most recent message is below, followed by the previous messages shared.

Successful Vaccine Clinic Held -- 4/8/21

Meredith College held an on-campus vaccine clinic on Wednesday, April 7, welcoming a total of 275 students, faculty, and staff.

Because Meredith was assigned the Johnson & Johnson Janssen vaccine, **which only requires one shot**, this will be our only planned vaccination clinic.

Visit our [Staying Strong website](#) for more information on COVID-19 vaccines, including resources on where to get a vaccine if you have not yet received one.

Thank you to our volunteers and other campus partners for helping us host a successful vaccine clinic.

Mary Johnson, DNP, FNP-BC, CWP
Director of Health Services

Fast Facts about the Johnson & Johnson Jansen vaccine -- 4/5/21
