

Vaccination Portal Reminder Message

Meredith Students:

Thank you for helping us to reach a 58.8% vaccination rate among students. Vaccination is the best tool we have to help end the pandemic and return to a more typical campus experience.

In addition, Meredith's Office of Career Planning and academic departments are increasingly hearing from area businesses, governmental agencies and organizations that proof of vaccination will be required for internships and field placements.

Vaccination Portal Reminder

If you have already been vaccinated, remember to submit proof of your COVID-19 vaccination status through our private, secure portal, which can be accessed at <https://cvdsubmit.meredith.edu/>. Please do not submit vaccination records directly to the student health center or any other campus office.

Vaccine Incentives

Meredith College is holding a series of four weekly drawings for students and employees who have submitted proof of vaccination. For students, the weekly prizes will be a \$500 tuition credit and \$500 in cash. For employees, the prizes will be a \$1,000 pre-tax bonus.

The recipients have been selected in the first drawing, but three more opportunities remain. Early reporting through the portal increases your chances of being one of the recipients. If you would like to participate in the drawings, check "yes" on that question when submitting your vaccination status.

Thank you for your continued attention to these messages, which are an important tool in keeping our campus community as safe as possible during the continuing COVID-19 pandemic.

-The Executive Leadership Team
